

Safety Policies for Tournament Competition 2018-19:

See ***Rules of the Road*** pp. 21-23. Site specific policies for the State Tournament at Beaver Local Schools:

- No latex whatsoever! Any balloons (example Mylar) or other products suspected of being made of latex MUST have the original package to show Prep/Staging area appraisers before competing.
- No helium balloons.
- Dry Ice is permitted but must be carried in and out in the same container (no putting it in school's sink or toilets). Follow ***Rules of the Road*** specifications.
- Any "theatrical weapon" must be obviously a prop (hand-made or "toy"). Please note, Ohio Revised Code classifies "starting pistols" as weapons. All "prop weapons" will be examined by Prep/Staging area appraisers. Teams should be prepared to explain the significance of the prop to their solution, and appraisers must be able to readily identify the "weapon" as a "safe" prop.
